Hi Janice

For your information I have sent you an outline of the project. You will find it as an attachment. I also sent the same email to everyone on Larkin Creek that I have emails for. Also Rick Rose and John Briggs. I for some reason could not get your email right LOL hopefully this one goes through.

Thank you so much for your input

Hi there,

Thank you for taking the time to document your recollections and send to us.

I have had a bit of time to read your Larkin Creek Project Outline. All the info is as I remembered it from our meeting. The one exception, relates to the statement in the 2nd to last paragraph, wherein you state that there was further agreement that there would be no further funds for Larkin Creek for 3 yrs (except for an emergency)???? None of us recall any such statement, or agreement. Cheryl thought perhaps you just accidentally made a misstatement? Either way, *I didn't want to wait til December or whenever to state that there was no such agreement within the parameters of the Special Road District meeting that we attended. Commissioners may have made such an agreement independently of the residents, after we left. If that is the case, then that is what should be stated in your outline for clarity. I just wanted to be clear as to our understanding. Furthermore, we all did agree that after the start of our next fiscal year, we would at least develop plans for maintenance for the next fiscal year. and Rick assured me that would happen. Tina, you may not have heard it as it was an aside conversation I had with Rick. Others did witness that as well. Thanks for your time and thanks for making yourselves available to work on the issue.*

I also support elimination of any and all conflicts of interest. Unfortunately, that has not been the case since the beginning of the formation of this entity. I have just attributed this to being a small community.

Cordially,
Janice Briggs
