

Local Access Road

A local access road is a user maintained public road that has not been accepted into the county road system or any other road system. A local access road has been dedicated to the public, but it has not been accepted as part of the publicly-maintained road system. The county still has jurisdiction within the rights-of-way of local access roads, but local landowners and road users have the responsibility for maintenance. The County has approximately 900 miles of user maintained roads.
